

# Day 4 journal entry

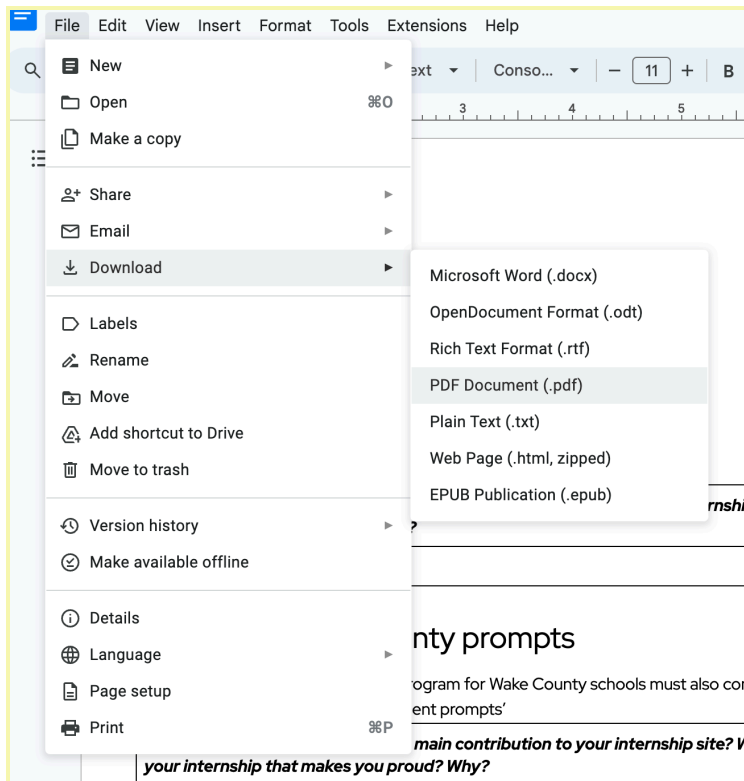

Joshua Pite

**Prompt option 3:** *What are your main takeaways from this first half of your internship and how do you plan to carry those lessons into your second week?*

Some of my main takeaways from this first half of my internship are that you should really be attentive and take notes because the amount of information and important people that we have spoken to is insane and there is just so much to take away and actually digest and learn from. I plan on applying this even more next week by continuing to take notes and I'm going to ask even more questions and be more curious in the future. There are many impactful and intelligent people at RedHat and having the opportunity to talk to a lot of them is very special so I really want to take the most out of it.
